

Introducing the Integral Bi-Directional Relief Valve

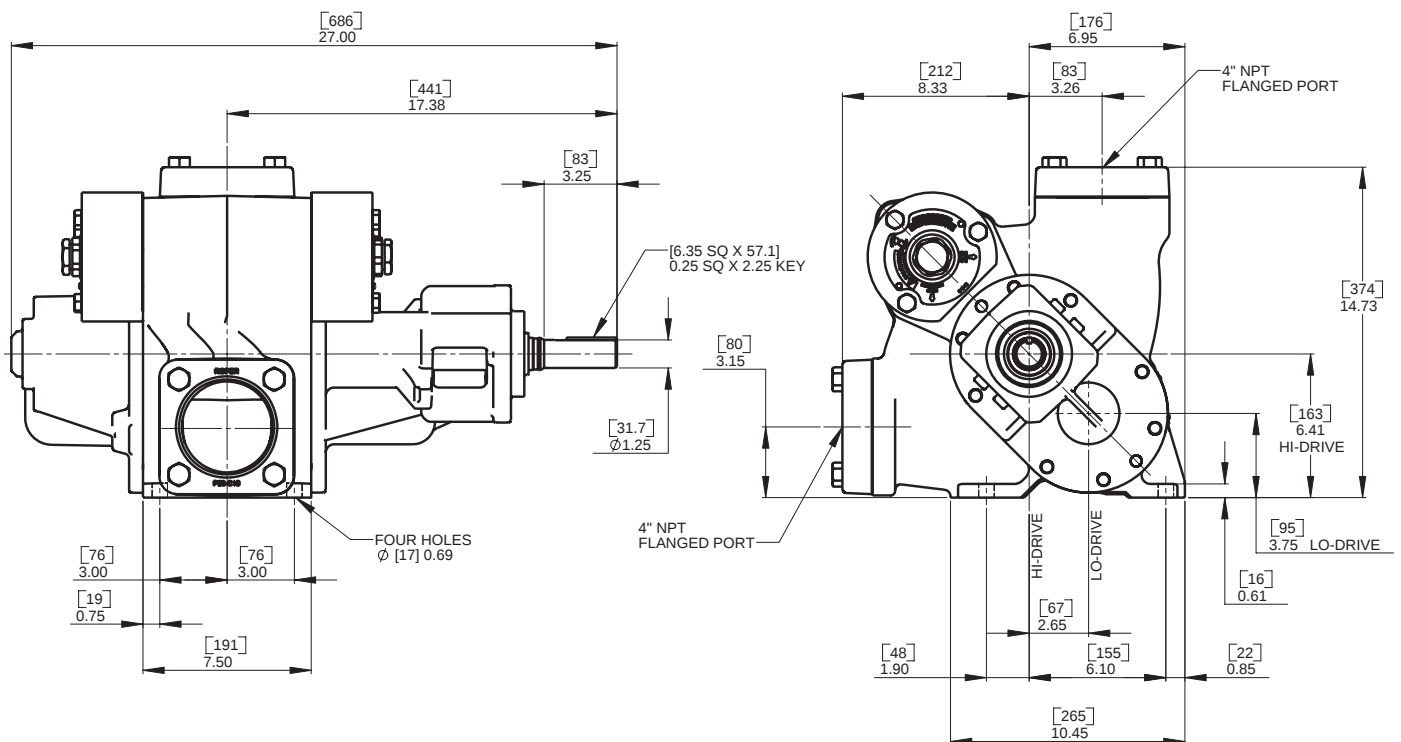

Don't have an accident going in the wrong direction!

- Available for 3648, 3748 & 3848
- Same performance as our proven 3600 Series single direction relief valves
- Easy-to-maintain design
- Torture tested
 - Life exceeded 12,000 fully reversed cycles
- Better than externally plumbed systems:
 - More compact
 - Lighter weight
 - Lower cost
 - No additional plumbing
 - Fewer joints to leak
